MEMORANDUM FOR: Acting Executive 
THROUGH : Personnel Director
FROM : Chairman, Hazardous Duty Committee
SUBJECT : Report of Hazardous Duty Committee

25X1A

Forwarded herewith is the report of the Hazardous Duty Committee for your consideration.

Your attention is called to the attachment to this report from the Assistant Director, OPC, expressing some reservations in connection with the Committee's proposals.

With reference to item 2 of Mr. Wisner's memorandum, it is my opinion that the Committee would probably be agreeable to another name for the category now referred to as "hazardous" provided it is one based on a career service concept. While another name which is indicative of overseas service may be used, it probably should not be referred to as "overseas service" in any proposed legislation. Further, it would preclude hazardous duty within the US.

With reference to item 3 of Mr. Wisner's report, I would like to point out that the Committee has recommended only two benefits for

25X1

The proposed recommendations have been concurred in by the Assistant Directors of OSO and OO and the Chief, I&SS.
